(484) 632-5178

OBJECTIVE: To obtain a career in Web Development utilizing skills picked up through experience and my time at a full stack coding boot camp.

EXPERIENCE

Global Tax Management, Wayne, PA— *Junior Web Developer | TAS Analyst*

2016 - PRESENT

- Co-maintained GTMpower, a data management solution by Thomas Powers. I redesigned dozens of outdated web pages using the Bootstrap framework.
- Created custom validation for logins and forms.
- Created GTM QuickShare, a repository to store and maintain tax software, especially Excel workbooks containing VBA Macros.
- Co-developed Excel Add-ins for GTMpower.
- Created user interface designs in Balsamiq for upcoming app features in GTMpower.
- Created UI For Upcoming App Features in GTMpower.

TeamChildren, Audubon, PA — *Computer Technician*

June 2015 - June 2017

- Imaged Windows Laptops Using TeamChildren's Custom Imaging Tool.
- Quality Tested Each Laptop After Imaging to Ensure They Functioned Properly Post Image.
- Created the 'Windows Deletion Utility', an extension to Team Children's Custom Imaging Software Which Removed Test Accounts Created During the Imaging Process. This Tool Was Eventually Merged With the TeamChildren Imaging Software, Skipping Several Manual Steps Normally Taken Without the Utility In Place.

EDUCATION

University of Pennsylvania, Philadelphia, PA—*Full Stack Web Development Certification*

April 2019 - October 2019

Upper Darby Senior High School, Upper Darby— *High School Diploma*

2013 - 2018

Student Ambassador (2013 & 2017), Participated in the Drama Program.
